There will come a time when the theory and practise of medicine, in every-day use, will be but the theory and practise of keeping well in the household.

The chair of domestic economy in the colleges will comprise, in addition to the hygiene of bread-making and bed-making, the hygiene also of washing, wiping and sneezing. It will be impressed upon the student that the greatest household economy is health; and that the health of such a community rests not upon the cooking and dusting done by one, but upon proper general precautions combined with personal care by each separate individual.

"INCURABLE" HEART DISEASE SOON CURED

By the Great Specialist in Treating Heart Disease and Dropsy, FRANK-LIN MILES, M. D., LL. B.

Who Will Send \$2.50 Worth of Special Treatment and New Book Free.

To demonstrate the remarkable curative powers of his new and complete Special Personal Treatments for heart disease, short breath, pain in the side, oppression in the chest, irregular pulse, palpitation, smothering spells, puffing of the ankles or dropsy, Dr. Miles will send, free, to every afflicted person, \$2.50 worth of treatment.

They are the result of 28 years of extensive research and remarkable success in treating the various ailments of the heart, stomach and nerves, which so often complicate each case. So astonishing are the results of his treatment that he does not hesitate to offer all afflicted persons a two-pound Trial Treatment free.

OPPORTUNITY FOR YOUNG

Women; Nursing the Best Paid Occupation.

The Philadelphia School for Nurses, 2219 Chestnut street, Philadelphia, Pa., offers free scholarships in trained nursing to young women in every state in the Union. The scholarships cover the full two years' course, with room, board, uniforms, laundering, etc., included, and railroad fare paid to home town or district upon the completion of the course.

A home study course and a short resident course are also provided, which quickly open the door to opportunity and enable progressive students to render a noble service to humanity and at the same time acquire for themselves a substantial income from the best paid occupation now open to women; besides qualifying every student to deal with emergencies in the home that may mean the saving of a loved one's life.

Far-seeing philanthropists are adding to the resources of this school, with the view of ultimately extending these benefits to earnest, energetic young women in all country districts and in all the smaller towns and cities.

The institution is approved and endorsed by leading physicians and educators of the entire country. Some of the leading men of this state are its strong supporters and endorsers, as will be seen by the catalogue which will be sent to any one who writes to the school for it.

When Grant Went-a-Courtin'.

In the February Circle magazine Mrs. Emma Dent Casey tells of Grant's wedding as she remembers it:

"During the ceremony I sat as quietly as I could on a pret table with Miss Amanda Shields, who afterward became my brother John's wife. We tried to be seen and not heard, but I fear we succeeded in being heard more than anybody else. At any rate, I have since learned it from the lips of Cadmus Wilcox (afterward General Wilcox) that I was the most pestiferous little nuisance during the whole wedding; that I was under his feet all the time when I was not under somebody else's feet, and that he had most heartily wished me in bed. No doubt we were both as ubiquitous and chattering as most small girls are apt to be on such occasions. But, at least, I sat still long enough to admire my big sister's extreme prettiness as she stood in her bridal dress beside her quiet, self-possessed soldier. Captain Grant was as cool under the fire of the clergyman's questions as he had been under the fires of the Mexican artillery. He did not look as if he were ashamed or afraid to be there, as I have seen some other bridegrooms look."

Mrs. Casey also makes an important contribution to the controversy about Grant's early habits: "Perhaps I ought to have said before—though it will apply equally as well here—that during all the time I knew Grant, between his return from California in 1854 to the fall of Vicksburg, I never saw him intoxicated. I never saw him under the influence of liquor. If he ever was, it was not known to the members of his immediate family. Charges that he was a heavy drinker were made in those days, and have been made since. General Grant never gave them any notice. Mrs. Grant also ignored them, though she felt deeply cut by the injustice of them, and perhaps, it is not my place at this late date to resent the recent statements made by a prominent man in public life, under the very shadow of Grant's tomb. Therefore, I will content myself with saying again that if General Grant was ever a victim of the liquor habit it was a condition which he happily concealed from those nearest his heart, closest in their association with him, and who loved him best."

Eat What

You want of the food you need Kodol will digest it.

You need a sufficient amount of good wholesome food and more than this you need to fully digest it. Else you can't gain strength, nor can you strengthen your stomach if it is weak.

You must eat in order to live and maintain strength. You must not diet, because the body requires that you eat a sufficient amount of food regularly.

But this food must be digested, and it must be digested thoroughly. When the stomach can't do it, you must take something that will help the stomach.

The proper way to do is to eat what you want, and let Kodol digest the food.

Nothing else can do this. When the stomach is weak it needs help; you must help it by giving it rest, and Kodol will do that.
